- English (Professional)

PROFILE

Junior AI Developer at Develoop Group, building Python RAG pipelines, LLM-powered conversational agents, and workflow automations, and training non-technical staff on generative AI tools. Hands-on experience in software testing and QA, telecom customer support and sales at Touch, high-volume data entry and record verification, and cashier, call-center, and delivery coordination in fast-paced restaurants. Computer Science student at Al Maaref University.

WORK EXPERIENCE

Develoop Group

2025 - PRESENT

Junior AI Developer

- Applied AI Development: Engineered custom Python RAG pipelines and multi-layer conversational agents with automated intent routing and tool execution to streamline routine business tasks
- Workflow Automation: Built end-to-end automations connecting LLM APIs with internal business workflows, eliminating manual operational bottlenecks and improving execution speed.
- Enablement & Delivery: Led hands-on training sessions for non-technical staff on generative AI tools and prompting techniques while rapidly prototyping emerging AI frameworks.

Marketing and Sales Internship

2022 - 2024

- Software Testing & QA: Conducted systematic code and application testing to uncover functional defects and support development cycles
- Marketing & Client Support: Executed digital marketing initiatives while providing dedicated customer service to support client accounts and campaign execution.

Marjuha Restaurant

2025 - 2026

Data Entry

- System Data Administration: Executed high-volume data entry across internal software platforms, logging recipe specifications, queries, and operational records with consistent precision.
- Data Verification & Audit: Reviewed and cross-referenced records against physical documentation to ensure complete data accuracy and eliminate entry errors.

Touch Lebanon

2025 - 2026

Customer Service Agent

- Technical & Account Support: Delivered front-line customer service, resolving billing disputes, account inquiries, and mobile/SIM network configurations to maximize retention.
- Telecom Sales & Upselling: Evaluated subscriber needs to recommend optimal prepaid and postpaid service plans and drive promotional add-on sales.
- Data Administration & Compliance: Processed account updates and maintained strict data integrity through systematic physical and digital document archiving.

Grillo Nassar Restaurant

2024 - 2025

Cashier / Call Center and Delivery Coordinator

- Handled in-store and delivery payments.
- Managed phone orders and customer inquiries.
- Coordinated delivery dispatch and cash reconciliation.
